

1STPAYMOBILE

*Easily accept payments
anywhere you go*

When your business takes you on the road and you want to use your phone or tablet to process payments, 1stPayMobile® is your go-to payment device. 1stPayMobile allows you to process credit and debit cards, receive authorizations, capture signatures and email receipts all from the mobile device you already own.

QUICK & SIMPLE SETUP

Download the free app from the app store to set up 1stPayMobile on your mobile device.

SECURE TRANSACTIONS

With the same security features as a full-sized POS, the 1stPayMobile protects customers' data and keeps transactions secure.

ADVANCED COMPATIBILITY

The 1stPayMobile is compatible with most mobile devices including Apple and Android smartphones and tablets. Simply connect the card reader to the audio port for the majority of smartphones or to the lightning port for iPhone or iPad users.
